# NEZAVISNA I ZANATSKA PIVA

## Barba Pale Ale 0.5L

---

Pivo nastalo u labirintima Prve Splitske Craft Pivovare. Sastoji se od dvije vrste ječma (Češkog i Njemačkog) te od 3 sorte jako aromatičnog Američkog hmelja (Columbus, Centennial & Chinook). Barba je Ale pivo laganog i pitkog tijela.

BARBA Pale Ale is headlining beer coming out of First Local Craft Brewery called LAB Split. Barba is product of years of home-brewing experience and testing. Idea behind the BARBA was to create American Pale Ale best suited for hot Mediterranean summers. You can expect dry to medium body, leaving smooth sweetness mouth-feel, combined with bitter touch of carefully selected American Hops (Centennial, Chinook and Columbus) with silky bitter aftertaste produced by process of first worth hopping.

## Bura Brew Red Sand 0.33L

---

Pivo boje istarske crvene zemlje na kojoj i nastaje. U okusu dominira lagano prženi slad a proizvedeno je od 5 vrsti ječmenog slada. Zahvaljujući odmjerenoj dozi slovenskih i američkih hmeljeva, gorčina nije napadna već fino balansirana, dajući pivu pitkost bez obzira snagu tijela i sadržaj alkohola od 6,0% alk. Redsand je nefiltrirano i nepasterizirano „zanatsko“ pivo proizvedeno prirodnim načinom, a osim vode, ječmenog slada, hmelja i kvasca, sadrži oko 7-8% pšeničnog slada.

Red Sand Amber Ale beer has a color of Istrian red soil on which it was produced. The flavor is dominated by lightly roasted malt and is produced from the 5 types of barley malt. Thanks to measured dose of Slovenian and American hops, bitterness is not offensive but finely balanced, giving the beer drinkability, regardless of body strength and an alcohol content of 6.0% Alc. Redsand is unfiltered and unpasteurized "craft" beer produced naturally, and besides water, barley malt, hops and yeast, contain also cca 7-8% of wheat malt.
